4. For All Project Managers/Tech Leads:	3
5. For HR Team:	3
6. Timecard Submission Deadline:	3
7. Hours Submission For Fixed Holidays & Approved PTO:	3
8. Forecasting:	3
9. Responsible Stakeholders & Non-Compliance:	4
10. Late Submission of Timecards:	4

1. Purpose:

This policy is designed to guide MTX employees about the process and deadlines to ensure the timely submission of timecards and to maintain the accuracy of everyone's work hours.

2. Scope:

This policy is applicable to all MTX employees and independent contractors of MTX across all locations who have any billable project assigned to them, specifically the Delivery team and Specialised Shared Services team.

3. For All MTX Employees:

- When an employee starts working on a new billable project, they need to request an assignment from the Consulting Operations Team if they do not see it already in their assigned timecards. To this end:
 - Employees are to reach out to Consulting Operations <consultingops@mtxg.ai> via email for their assignment creation, copying their respective Project Manager for approval.
 - Requests made through hangouts or other means will not be fulfilled, and you will be directed to email the request.
- Every employee must save their timecard on a daily basis.
- Employees are to submit timecards on or before Friday of each week if you are not working over the weekend. In the event that you do work over the weekend, timecards must be submitted by midnight on Sunday, in your local time zone.
- Enter proper details in the “notes” field. You must submit your timecard with the relevant task/story/issue details that you are working on.
 - Timecards without “notes” will be rejected and escalated.
 - Please ensure that the notes are detailed and self explanatory and try avoiding one liner notes to avoid rejection of timecards.
- **End of Month Timecard Submission & Regular Timecard Submission** - To ensure that MTX is able to bill the client on a monthly basis for Time & Material projects, End of Month Timecard Submission is introduced for all MTX Employees. This new feature is only applicable towards the month end.
 - **End of Month Timecard Submission** - When the month end falls in between a week, the employee has to submit the hours and notes for the days before the last day of the month ends. The employees are required to enter the hours and notes for the days of the ending month by selecting the option “**End of Month Timecard Submission**” on the pop up window. Once this option is selected, they will receive another pop up window asking them to select the specific days that need to be considered for the end of month timecard submission. The employees are required to select the specific dates for the ending month and then click on submit. This will result in the timecard being submitted

as **“Partially Submitted”** which is considered as a successful month end timecard submission.

- **For Project Managers** - Once the partially submitted timecard is submitted, the project managers on the respective projects will have to approve them within the next 48 hours post which the timecard will get reassigned to the Director of the project. Once the Project managers approve the timecard, the status of the timecard would reflect as **“Partially Approved”**.
- **Regular Timecard Submission** - Employees need to ensure that they are submitting hours for the rest of the days of the week from the month ending week again after doing the end of month timecard submission. Employees are required to enter hours for the remaining days and provide notes and upon clicking submit they need to select the option **“Regular Timecard Submission”** on the pop window. Once this option is selected, they will receive another pop up window asking them to select the remaining days that need to be considered for the regular timecard submission. The employees are required to select the remaining days and then click on submit. This will result in the timecard being successfully submitted.
- We provide three default timecards to each billable employee to log hours if not assigned to any billable projects.
 - i. **Professional Development** - must be filled out only when an employee is investing hours in learning to maintain professional credentials, attending an educational conference, completing Trailheads,, etc.
 - ii. **Miscellaneous Activities** - must be filled out for activities that are not project specific and cannot be assigned to any other billable or internal project like 1:1, All Hands, fun activities, time spent on taking interviews, etc.
 - iii. **Vacation Project** - must be filled out only when you are on PTO or on leave. You can submit 8 hours a day for the days you were on leave. No billable hours need to be filled for the same day on billable/internal projects.
- Every employee must submit a timecard if they are working on enhancements to MTX internal applications. They can check with their Project Manager and reach out to Consulting Operations for their assignment creation with specific project details.

4. For All Project Managers/Tech Leads:

The Project Manager/Tech Lead should ensure that an assignment is created for all team members who are assigned to the project before the team members begin working.

5. For HR Team:

The HR team monitors for deviations in timecard submission, and timecard deviations are one of the parameters considered during the employee’s performance review process.

6. Timecard Submission Deadline:

- Sunday 12 AM (Midnight) in the employee's local time zone. However, employees can still submit their own timecards for any week within the last three weeks of the same month and that will be marked late.
- If the three-week submission window has also closed, employees must contact Consulting Operations to submit the timecard for the required week, ensuring the request includes a clear, day-by-day breakdown of hours and notes.

7. Hours Submission For Fixed Holidays & Approved PTO:

- **For Fixed/Mandatory holidays**
 - There is no need to submit any hours for Fixed/Mandatory holidays.
 - Do NOT save any hours against "MTX Vacation" as that will be logged as your PTO and your paid leave will be deducted accordingly.
 - If you did work on a project on a Fixed/Mandatory holiday, you should still submit hours against the relevant assignment(s).
- **For Approved leave/PTO**
 - Submit relevant hours under MTX Vacation assignment and zero (0) for all other billable / internal assignments.

8. Forecasting:

- **Project Manager (PM) / Project Coordinator (PC)**
 - Must forecast the number of hours scheduled on a particular project from the current date through the end of the project.
 - PM / PC should check with the project team on availability and expected forecast weekly.
 - PM / PC can reject any hours logged under their project when they are not clear regarding the deviation of actuals from the forecast.
- **MTX Employee**
 - Employees to ensure that all hours worked are logged, irrespective of them being higher or lower than the forecast.
 - If employees foresee submitting hours different from their forecast, they need to get forecasts updated by Tuesday of the same week. Reach out to the respective Project Manager / Coordinator to facilitate the updates.
 - If employees know that they are expected to work for a longer duration than is indicated on a project, they need to get the forecast extended and updated.

In short, everyone is responsible for forecast accuracy! Every employee should aim for minimum deviations from forecasted hours. Deviations should never be minimized by manipulating the hours that were worked.

9. Responsible Stakeholders & Non-Compliance:

Each MTX employee is responsible to save and submit his/her timecard by the mentioned deadline. Any deviation will be considered as Non-Compliance with the Timecard Policy.

10. Late Submission of Timecards:

- Project Managers and Reporting Managers will be notified by email regarding any employee who has not submitted their timecard by Sunday 11:59 pm in your local timezone.
- If a timecard is rejected and the said timecard falls within the three window of the same month, the employees will still be able to correct and re-submit their timecard for Project Manager approval.
- Employees can submit their own timecards for any week within the last three weeks of the same month. If the three-week submission window has also closed, employees must contact Consulting Operations to submit the timecard for the required week, ensuring the request includes a clear, day-by-day breakdown of hours and notes.

Note:

During an emergency or critical situation, employees who are unable to submit their timecards must inform their RM, PM, and consulting operations by email.
